CanMEDS Compliance

Based on the Learning Objectives of the CSTAR Otolaryngology Head and Neck Bootcamp 2013, the session is consistent with the following CanMEDS criteria:

1. Physician as Medical Expert where physicians are able to:
   - Establish and maintain clinical knowledge, skills and attitudes appropriate to their practice
   - Use preventive and therapeutic interventions effectively
   - Demonstrate proficient and appropriate use of procedural skills, both diagnostic and therapeutic
   - Seek appropriate consultation from other health professionals, recognizing the limits of their expertise

2. Physician as Collaborator where physicians are able to:
   - Participate effectively and appropriately in the inter-professional healthcare team

3. Physician as Scholar where physicians are able to:
   - Maintain and enhance professional activities through ongoing learning
   - Critically evaluate information and its sources, and apply this appropriately to practice decisions

Cancellation Policy
CSTAR reserves the right to cancel this program due to insufficient registrations or circumstances beyond its control. Registrants will be notified at the earliest possible date in the event of cancellation. Registration fees for courses cancelled by CSTAR will be refunded in full, however CSTAR is not liable for any loss, damages or other expenses that such cancellations may cause.

Refund Policy
Notice of cancellation must be received in writing 10-business days prior to the event. A $50 processing fee will be charged for cancellations received on or before this date. CSTAR regrets that refunds cannot be offered after the cancellation date.

Program Sponsorship
This program is supported in part by educational grants.

CSTAR’s 2nd Annual Emergencies in Otolaryngology Boot Camp
September 21, 2013
Course Overview

This one-day participatory course is intended to help junior Otolaryngology residents rapidly acquire emergency "on-call" skills. CSTAR’s Emergencies in Otolaryngology Bootcamp features hands-on simulated emergency scenarios, interactive simulation sessions, and panel discussions by expert faculty from different centers.

The goal of the program is to provide new residents with a chance to experience Otolaryngology emergencies in the laboratory before they happen in real life. Participants will gain important technical skills and decision-making capabilities in active formats to improve their confidence and abilities as they start Otolaryngology training.

Simulation Stations

STATION #1
- Bag mask ventilation, oral airway placement, and intubation
- Direct laryngoscopy and foreign body removal/ rigid bronchoscopy (pediatrics and adult)

STATION #2
- Emergency cricothyrotomy/ tracheostomy; trach tube change

STATION #3
- Posterior severe epistaxis
- Emergency lateral canthotomy for orbital hematoma

STATION #4
- Post-tonsillectomy bleeding
- Peritonsillar abscess

AFTERNOON SESSION
- Emergency Scenarios

Target Audience
PGY1&2 ENT Residents
