DR. DORON SOMMER, Hamilton, ON

CME CREDITS
6 Hours, CAT 1 MAINCERT

Wednesday, May 26, 2010
08:00 – 16:00
Sheraton on the Falls Hotel, NIAGARA FALLS, ON

COURSE DESCRIPTION
This is a follow-up course to the International Congress on Salivary Gland Disorders held last October in Montreal. This program will include instruction on the combined technique as well as provide teaching not covered in Montreal. Participants will learn more advanced techniques and they will have the opportunity to refresh their sialoendoscopy skills. Attendance at the Montreal course is NOT a prerequisite as basic concepts will once again be reviewed. Participants will get hands-on opportunities along with the ability to interact with those otolaryngologists in Canada who are well-versed in sialoendoscopy.

LEARNING OBJECTIVES
By the end of this course participants will -
- Familiarize themselves with minimally invasive endoscopy techniques in treating benign salivary gland conditions.
- Gain hands-on experience with endoscopic instruments used in sialoendoscopy.
- Learn combined approaches to the treatment of salivary ductal disease (ductal stretching technique, ductal bypass, ductal stenting among others)
IMPORTANT
We strongly encourage participants to bring their LOUPES.

COURSE FEES
CONSULTANTS - $300
RESIDENTS - $250

A FULL REFUND of the registration fee will be issued for cancellation received BEFORE MAY 12, 2010. A $100 administration fee will be applied.

Registration is LIMITED and will be accepted on a first-come, first serve basis.

We would like to thanks KARL STORZ ENDOSCOPY for their support, received through an unrestricted educational grant.

Course Outline

08:00 – 09:00 BREAKFAST & REGISTRATION
09:00 – 10:00 INTRODUCTION:
- Instrumentation and techniques
- Imaging of benign salivary conditions
- Role of sialoendoscopy in pediatric patients
- Adult salivary pathologies
10:00 – 12:00 HANDS-ON WORKSHOP
12:00 – 13:00 LUNCH
13:00 – 14:00 COMBINED APPROACHES:
- Sialoendoscopy and external techniques;
- Choosing the right patient for sialoendoscopy
- Complications of sialoendoscopy
- Trouble-shooting in sialoendoscopy
14:00 – 16:00 HANDS-ON WORKSHOP

Registration Form – 2010 Sialoendoscopy
