

Otorhinology

Consider joining the growing health care system in Sudbury, Ontario, Canada!

The service of Otorhinology at the Hôpital régional de Sudbury Regional Hospital (HRSRH) is seeking to add an ENT specialist, with a fellowship in head and neck oncology, to its team to meet the demands in the region.

As a large tertiary care provider, the HRSRH is the regional resource and referral centre for the entire Northeastern Ontario region. The HRSRH has just opened a state-of-the-art teaching hospital and regional health sciences centre serving over 500,000 residents. The new one-site acute care facility boasts 17 ORs and state-of-the-art equipment throughout.

The three existing ENT members are part of Sudbury Regional Cancer Centre Head and Neck Team, with one member dedicated to the Sudbury Regional Cancer Program. The team includes radiation and medical oncology, a supportive ICU staff, a plastic surgeon involved in microvascular reconstruction, and general surgeons involved in PEG insertions. Ancillary services include dedicated nutritionists, dentists and physiotherapists.

All physicians have the opportunity to seek academic appointment at the Northern Ontario School of Medicine, and become involved in teaching and research.

Sudbury is a city of lakes and parklands where recreational opportunities abound. The City is near spectacular Georgian Bay and the Muskoka regions, and is less than four hours from Toronto.

L'HRSRH offre ses services en anglais et en français et nous encourageons les candidats bilingues à faire demande.

Applicants must be eligible for a license in Ontario and have obtained or be eligible to obtain specialty qualifications by the Royal College of Physicians and Surgeons of Canada.

Since Sudbury is designated by the provincial Ontario government as underserved, successful applicants may have access to attractive Ministry and community relocation incentives.

Interested candidates should fax their résumé to the Medical Affairs Office at (705) 523-7041 or email to gvezina@hrsrh.on.ca.
