

Medical ENT - Northern and Southern Alberta

Aria MD is looking for a RCPSC certified otolaryngologist to join our network of family physicians and specialists in Alberta. We are looking for a full time medical otolaryngologist to practice in one of our associated clinics throughout Alberta. We are currently deficient in ENT services throughout the province but do have specific needs in Fort McMurray, Edmonton, Canmore, and Calgary. The position would consist of full time clinic duties. Support from clinic RN, RT, hearing practitioners is provided. All state-of-the-art equipment is also provided in our new facilities. Unfortunately, there is no possibility of operative time. Nonetheless, we believe this is great opportunity whether you are a young graduate seeking a stepping stone, supplementing your current practice, or someone near retirement transitioning to a low stress career. We would ideally like a minimum commitment of 1 year but are open to other short term arrangements, and are also open to surgeons who are planning on maintaining a part time practice elsewhere. Further details available on inquiry.

Unfortunately, we are unable to provide practice assessments to foreign graduates. As such, we can only consider those who already have a Royal College (Canada, Ireland, Great Britain) certification.

We would appreciate any resumes or inquiries to be forwarded to d.abilmona@ariasleep.com
