JOB POSTING:

Rhinologist, Endoscopic Sinus and Skull Base Surgeon, University of British Columbia and Providence Health Care
Division Otolaryngology-Head and Neck Surgery

The Division of Otolaryngology-Head and Neck Surgery at the University of British Columbia and Providence Health Care are seeking qualified applicants for the position of rhinologist primarily based at St. Paul's Hospital in Vancouver, B.C.

Position Summary:

The successful individual will work with rhinology colleagues in the Division of Otolaryngology-Head and Neck Surgery at the University of British Columbia. The individual will be primarily based in the Otolaryngology-Head and Neck Surgery Clinic at St. Paul’s Hospital in downtown Vancouver with possible cross appointments at Vancouver General Hospital and/or Surrey Memorial Hospital. The current allotment of resources available to the individual may include one or two clinic day(s) and one operating room day per week at St. Paul’s Hospital. Resources available at Vancouver General and Surrey Memorial Hospitals remain to be determined. The individual is expected to commit to a minimum of one research (non-clinical) day per week. The successful applicant will be expected to work in partnership with colleagues in the Heart and Lung Institute, PHC for instance, to collaborate in advanced clinical and basic science research. UBC Clinical Faculty rank is commensurate with qualifications and experience.

Compensation:

It is expected the individual will be financially supported for clinical work through fee for service payments from the Medical Services Plan of British Columbia and will be supported with a base salary of approximately $20,000 per year for the first three years for the research time. It is also hoped that the individual will have access to research start-up funds, although the exact amount at this time remains to be determined. During the first three years, it is expected the applicant will demonstrate strong research productivity including garnering of research grant support.
Education and Requirements:

1) Completion of Otolaryngology-Head and Neck Surgery Residency with a fellowship in Rhinology, including endoscopic sinus and skull base surgery.
2) Ability to obtain medical licensure in British Columbia.
3) Masters Degree an asset, and/or evidence of research training and experience.
4) Demonstrated interest in clinical and basic science research at an academic level.

Application Process:

Please submit your application including cover letter, curriculum vitae and references electronically prior to July 15, 2016 to:
