

PRE-CONVENTION WORKSHOP

“Reducing the Risk of Surgical Error: Lessons Learned from the CMPA Files”

Saturday, June 10, 2017 @ 14:00 – 16:00
Gallery A Ballroom, TCU Place, Saskatoon, SK

REGISTRATION

Name: _____

Address: _____

City: _____ Prov: _____ Postal Code: _____

Email*: _____ .

***Important:** Email will be used to send out reading material in May.

Workshop Outline

This interactive workshop is for a surgeon interested in improving the care that they provide for patients and in preventing surgical error in their practice. Facilitated by an expert from the CMPA and informed by data from CMPA files, the workshop will examine risks in both office-based and operative (pre-operative, intra-operative, and post-operative) care. Participation in this workshop can earn you credits in both MOC Section 2 and 3 (approval pending).

Learning Objectives

- Identify at-risk behaviours in surgical practice that expose surgeons to medico-legal liability.
- Analyze the impact of at-risk behaviour on patient care.
- Develop strategies to address at-risk behaviours in surgical practice and improve patient care.

Cost: **FREE but participants must pre-register**

Workshop maximum: 40 participants.
