## **Programme**

Henry Johnson, PEI Convention Centre  
CHARLOTTETOWN, PEI  
Saturday 11<sup>th</sup> June 2016

**Faculty:** Mr. Neil Bateman (UK)  
Dr. Brian Rotenberg (Can)  
Dr. Andrew Morrissey (Can)

## Course Description

The COBLATION™ course features scientific lectures, workshops and open discussions, enabling the delegate to learn more about COBLATION™ tonsillectomy and other applications. The subject around different methods of tonsillar tissue removal is explored in depth as well as step-by-step guides to best practice. Cadaver workstations will allow the delegates to learn and practice the techniques required to use this technology safely in a controlled environment.

## Learning Objectives

- ✓ Understand core principles of COBLATION™ in ENT and how it differs from other RF devices
- ✓ Increase knowledge of using COBLATION™ technology in tonsillectomy, turbinate reduction and laryngeal procedures
- ✓ Selecting appropriate patients for the procedures to ensure good patient outcomes

## Participant Profile

- ✓ HCPs with experience in adult / paediatric tonsillectomy, turbinate reduction and laryngeal surgery
- ✓ HCPs wishing to gain a full understanding of COBLATION™ in ENT surgery
