

Otolaryngologist

Kamloops, British Columbia

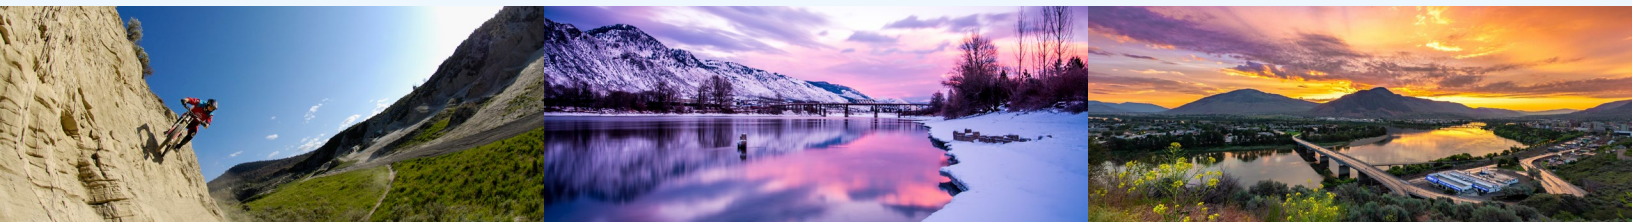

"I don't think we could have lucked into a better situation than our life and work in Kamloops. The hospital work is varied and interesting and the culture in health care here is second to none in terms of collegiality and a supportive team mentality. Work aside, the outdoor activity opportunities are endless and accessible 12 months of the year."

~Dr. Paul Campsall, IH Physician

Kamloops is seeking a full time general Otolaryngologist to join our collegial group. Our group works well together which allows us flexibility within our work schedules. We have a brand new clinic space 5 blocks from the hospital set up to be used by all Otolaryngologists in town. We currently have 3 OR days and 1 ambulatory care day per week that will be shared equally between all members of the group. There is also a private surgical centre in town. The operating room is completely set-up including CO2 laser, Medtronic Fusion Image Guidance System, Medtronic Nerve Integrity Monitor, and Paediatric Bronchoscopy, making an easy start for any new physician.

Apply Now and come work where others only play!
