

Head and Neck/ Microvascular Surgeon Dalhousie University

The Division of Otolaryngology-Head and Neck Surgery is seeking applicants who wish to pursue an academic career in Head and Neck/Microvascular Surgery at Dalhousie University. The successful fellowship trained candidate will join four other staff surgeons in a well established multidisciplinary Head and Neck cancer program servicing the Maritime provinces. Protected and fully funded research time is available and encouraged. The Division offers competitive alternate funding compensation combined with a young and vibrant faculty which makes this a tremendous opportunity for interested candidates. Applicants with a Masters in clinical epidemiology & community health is required.

The QEII Health Sciences Centre is the principal teaching hospital affiliated with Dalhousie University and a centre for excellence in health care research. It provides core health services to 500,000 Halifax region residents (50% of the population of Nova Scotia) and tertiary and quaternary acute care services to residents of Atlantic Canada. All qualified candidates are encouraged to apply; however, Canadians citizens and permanent residents will be given priority. Dalhousie University is an Employment Equity/Affirmative Action employer. The University encourages applications from qualified Aboriginal people, persons with disability, racially visible persons and women.

Closing Date: August 4th, 2023

Applications, accompanied by a detailed curriculum vitae and names of three referees, should be sent to:
