further if interested**

**Please contact Karine at
613-841-3033 or at**

kbosse@echoaudiology.com

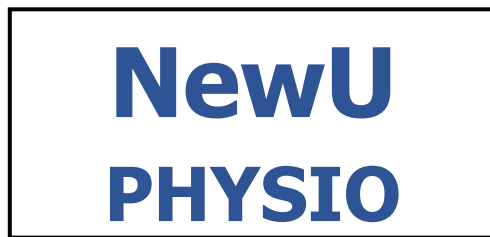

Karine Bossé, the owner of Echo Audiology, opened her doors in the fall of 2017. With close to 10 years of clinical experience in private clinic and as a managing Audiologist, Karine got an opportunity to not only offer her Audiology services to the community, but also build a health hub of professionals who share knowledge in connected fields of practice and rehabilitation services.

With Key to Speech and NewU Physio joining this year, this dream has finally come true, and patients have already shown excitement over finding connected services all in one location.

We believe that the one Health Professional missing in this equation is an Ear, Nose & Throat Specialist. We also know there is a need for this specialty in our community.

A Little About Us...

Echo Audiology, Key to Speech and NewU Physio are three independent clinics who have come together in one location to offer bilingual and quality services to the community. This health hub is located in the eastern suburb of Orléans in Ottawa, near the busy intersection of 10th Line and Innes Road. This location also offers dental services through the Vantage Dental Centre, a long-established clinic in a unit next door.

About Echo Audiology (www.echoaudiology.com)

- ✓ Owned and operated by Karine Bossé
- ✓ Focus on quality of service and offers a holistic approach to Audiology services
- ✓ Services offered: Hearing Tests for Children (6 months +), Hearing Tests for Adults, Tinnitus Consultations, Hearing Aids and all related services, and much more.
- ✓ Echo Audiology is one of the only private clinics in the city to perform hearing tests for young children in Ottawa outside of CHEO (Children's Hospital of Eastern Ontario).
- ✓ **Also offers:**
 - Significant ENT testing experience
 - Close to 10 years of clinical experience
 - An extensive understanding of hearing loss, including those due to medical reasons

About NewU Physio (*Website coming soon*)

- ✓ Owned and operated by Julie Bossé
- ✓ Has over 12 years of clinical experience in private practice in the field of Sports and Orthopaedics with a focus for the past 9 years on her special field of interest: the head, neck and TMJ
- ✓ Services include assessments and treatments for a variety of conditions such as TMD, headaches, concussions, Trigeminal Neuralgia, oro-facial pain, whiplash, neck disorders, otalgia and tinnitus from physical causes, as well as vestibular rehabilitation

About Key to Speech (www.keytospeech.ca)

- ✓ Owned and operated by Brigitte Dobrzanski
- ✓ Offers a team of Speech-Language Pathologists who offer various areas of expertise
- ✓ Provides assessments and intervention to preschool & school-aged children, and adults
- ✓ Services include but are not limited to therapy for Language, Stuttering, Pragmatic Skills, Atypical Swallowing, Neurodegenerative Diseases (ie: Parkinsons) and much more!
