

Canadian Society of Otolaryngology-Head and Neck Surgery

74th ANNUAL MEETING (Virtual)
September 26 – November 14, 2020
“Quality and Excellence in Otolaryngology-Head and Neck Surgery”

Due to the ongoing COVID-19 pandemic, this year’s annual meeting will take place virtually over a period of 7-weeks. It will provide learners in the specialty of Otolaryngology – Head and Neck Surgery (including general and subspecialty Otolaryngology – Head and Neck surgeons as well as resident and medical student trainees) a significant opportunity to attend online sessions of interest and acquire further understanding and knowledge in areas of perceived / unperceived weakness in the specialty. All branches of the specialty, including head & neck oncology, laryngology, rhinology, otology, neurotology, pediatric otolaryngology, facial plastic and reconstructive surgery, general otolaryngology, sleep disorders, and medical education, are part of the program.

We will run online plenary sessions including guest speaker lectures, workshops, panels, and podium presentations. This will provide delegates with a great variety of learning opportunities. Provision as been made to allow attendees ample time for enhanced dialogue and discussion with the various presenters via Q&A and chat functions.

In keeping with the theme of this year’s meeting, “Quality and Excellence in Otolaryngology-Head and Neck Surgery”, guest speakers will present their areas of expertise through plenary talks and workshops. Increased numbers of workshops will give each learner practical and adoptable knowledge to use immediately in their practice. In addition, there will be 3 applied courses of pertinent interest designed for impactful learning. This year’s program will include workshops and presentations for the community-based practitioners, continued information on technological advancements, and popular updates on a variety of topics.
