Recruiting an Otolaryngologist Associate

Toronto Head & Neck Clinic is a beautiful, modern facility in the heart of Forest Hill (Toronto), dedicated to ailments of the head and neck (Otolaryngology-Head & Neck Surgery). The clinic boasts 3 full examination rooms (with operating microscope), and a complete Hearing and Balance Centre (with same day audiogram and inner ear testing capabilities). With a total of 14 rooms, the clinic also has a full dental practice, vestibular rehabilitation therapy, and a swallowing clinic.

THN Clinic is open 6 days a week, and is looking to expand clinic hours to weekday evenings and Sundays. You would be joining a team of 7 fellow Otolaryngologists currently working at the clinic in a collaborative, collegial environment.

Due to our massive referral volume, we are currently seeking both full-time and part-time otolaryngologists to work at our busy practice. You will be scheduled into fully booked clinics, and we can adjust the patient volumes according to your comfort level when starting out. We can also provide flexible clinic slots or regular fixed schedules. We offer very favourable overhead rates, which include EMR and administrative support.

This would be a great opportunity for a new grad looking to bolster their clinical volumes, experienced practitioners interested in working in the Forest Hill area, or a senior Otolaryngologist looking to work part-time hours while transitioning into retirement.

All candidates must be certified by the Royal College of Physicians and Surgeons of Canada, registered with the CPSO, and carry CMPA coverage.

Interested parties should contact the clinic and provide a copy of your CV. Please kindly contact Swanie Minguez, Recruitment Coordinator: E-mail: info@thnclinic.com, Phone: 416-787-5511.

Thank you.
